- Earning revenues for government

A revenue of Rs.26,001,043.11 has been earned for government during month of January to December from the buildings owned by the Department of Pensions and Rs1,789,525 from Holiday Resort

• Steps taken for capacity development and welfare of the Departmental officers

- As a solution for the grave economic crisis prevailing in the country steps were taken to raise awareness of the officers of the Department of Pensions with the assistance of the Department of Agriculture – Western Province regarding the importance of home gardening and related activities.

In line with the above programme the welfare society of the Department of Pensions has took steps to distribute seeds required for home gardening for all officers.

- A health camp was conducted in collaboration with the Hemas Private Hospitals in view of raising health status of officers who required such assistance.
- “Friday Forum” programme was relaunched from month of November 2022 in creating a productive service environment for the officers through the formation of sensitivity and affection on arts and literature by deviating from the routine duties.

In line with the above programme a counselling session on working environment and stress management was held on 18.11.2022 under the guidance of Psychotherapist Mrs.Tharu Buddika Paranavithana. Additionally, the musical programme called “Miyesi Sendewa” was held on 16.12.2022 giving opportunity to sharpen vocal skills of the officers of the Department which staged to display skills of the officers.

Counselling Programme

An event of “Miyesi Sendewa” musical

- Sports club of the Department has organized a friendly cricket competition in view of enhancing sports skills and cooperation among officers in the Department.

- A training programme was conducted via zoom technology with the participation of large number of officers acting correlatively with the Department of Pensions.
- Initial steps were taken by conducting service inaugural training programme for new officers recruited as Development Officers to prepare for the working environment of the Department of Pensions.
- **Upgrading physical conditions**
 - Renovation of air-conditioned conference hall of Holiday Resort in Kelaniya.

Challenges

- I. Due to not receipt of sufficient financial provisions for year 2022, it has been unable to pay gratuities for over 15,000 pensioners amounting for Rs.17,000 million as at 31st December and the number of new pensioners will be increased to 30,000 as a result of amendment to the age of retirement.
- II. About 35% applications received online for the registration as new pensions has been rejected due to incomplete submissions, incorrect forwarding of applications by subject officers and non-registration in Widows' and Orphans' Pensions scheme properly.
- III. All officers receiving permanent appointments in public service should be registered compulsorily in Widows' and Orphans' Scheme within first 03 months from the appointment and should be obtained a membership number. However, as a result of not obtaining a Widows' and Orphans membership number even as at the date of retirement has caused many difficulties as a result of submitting many applications at once for the registration which has to give priority accordingly. Many applications as such are receiving in respect of the officers serving under Zonal Education Offices, Ministries of Provincial Education, Department of Police, Department of Civil Security and Ministry of Health.

Forward March of the Department of Pensions

The retirement age in public service was extended upto aged 65 by Budget Proposal 2022 and as per the Cabinet Decision No. 21,2270,315,040 the age of compulsory retirement of public officers was decided as age of 65 years except of the officers, whose compulsory retirement age has been determined by the Constitution or any other law prevailing. Even though, it was expected some decrease to be observed in new retirements, a special attention had to draw in year 2022 regarding the burden falling on public service.

However, H.E. the President at his interim budget speech 2022, on 30th August 2022 for presenting Appropriation (Amendment) Bill No.30 of 2021 has proposed under public sector reforms in segment 11:2 to reduce compulsory retirement age of public and semi-public officers to age of 60 years.

Even though, the retirement age has been extended up to 65 years of age as a temporary solution to manage pension payments, it is observed that without introducing a long term formal reform process to government pensions the particular decision may further complicate the issues of pensioners.

As a result of reducing age of retirement once again from 65 year to 60 years, a rapid increase could observe in new registrations during year 2023 and therefore, it is expected an expansion in the payment of new pensions and gratuities. Under these circumstances, it will be required to overcome the challenge of implementing pension reforms in year 2023 in order to continue pension systems methodically by giving advantages not only to public employees but also to the tax paying general public of the country as well.

3.13. Report of the Auditor General

LSW/E/DOP/02/23/18

2023.06.01

Director General
Department of Pensions

Head 253 – Summary Report of Auditor General in terms of Section 11(1) of National Audit Act No.19 of 2018 on financial statements for the year ended 31st December 2022 of the Department of Pensions.

1. Financial Statement

1.1. Opinion

Head 253 - The financial statements of the Department of Pension for the year ended on 31st December 2022 comprising the statement of financial position as at 31 December 2022 and the statement of financial performance and cash flow statement for the year then ended was audited under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read with provisions of the National Audit Act, No.19 of 2018. This report contains my comments and observations on these financial statements of the Department presented in terms of Section 11(1) of the National Audit Act, No.19 of 2018. Action will be taken in terms of Section 11(2) of the National Audit Act, No.19 of 2018 to issue an Annual Detailed Management Audit Report to the Accounting Officer in due course. The Auditor General's report to be issued in pursuance of provisions in Article 154(6) of the Constitution of the Democratic Socialist Republic of Sri Lanka read with Section 10 of the National Audit Act, No.19 of 2018 will be tabled in Parliament in due course.

In my opinion, the financial statements give a true and fair view of the financial position of the Department of Pensions as at 31 December 2022, and its financial performance and cash flows for the year then ended in accordance with Generally Accepted Accounting Principles.

1.2. Basis for the opinion

The audit has been conducted in compliance with the Sri Lanka Audit Standards (S.L.Au.Ss.). My responsibility under these audit standards is further stated in the Auditor's Responsibilities for the Audit of the Financial Statements. I believe that the audit evidences used as the basis for my qualified opinion were appropriate and suitable.

1.3. Responsibilities of the Chief Accounting Officer and the Accounting Officer for the Financial Statements

The Accounting Officer is responsible for the preparation of financial statements that give a true and fair view in accordance with Generally Accepted Accounting Principles and provisions in Section 38 of the National Audit Act, No.19 of 2018 and for the determination of the internal control that is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In terms of Section 16(1) of the National Audit Act, No.19 of 2018, the Department is required to maintain proper books and records of all its income, expenditure, assets and liabilities to enable the preparation of annual and periodic financial statements.

In terms of Sub-section 38(1)(c) of the National Audit Act, the Accounting Officer shall ensure that an effective internal control system for the financial control exists in the Department and carry out periodic reviews to monitor the effectiveness of such systems and accordingly make any alterations as required for such systems to be effectively carried out.

1.4. Auditor's Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's summary report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate and its materiality depends on the influence on economic decisions taken by users on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Appropriate audit procedures were designed and performed to identify and assess the risk of material misstatement in financial statements whether due to fraud or errors in providing a basis for the expressed audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- An understanding of internal control relevant to the audit was obtained in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the structure and content of the financial statements, including the disclosures of management and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Evaluate whole presentation of the financial statement of reveals as to whether included transactions and events appropriately and suitably for the content and structure of the financial statements.

I have raised the awareness of Chief Accounting Officer/ Accounting Officer regarding significant audit findings, including significant deficiencies in main internal controlling and other matters.

1.5. Report on other legal requirements

Following are declared in terms of Section 6(1)(d) of National Audit Act No.19 of 2018.

- The financial statements are consistence with the preceding year.
- The recommendations directed by me in preceding years were included in the financial statement.

Furthermore, the two elder children of first marriage have been paid 50 percent each under pension numbers 50-2010711 and 50-2010712. However, upon completion of due age of elder child, the pension has been paid as usual with effect of 1st of January 2019 to 09th December 2022 without adding the portion of Rs.500,400 of the elder to the younger child.
- (c) As per a request made by a disabled pensioner bearing No.24-71678 on 27th January 1997, a disabled pension has been paid from 1st February 1990 by the award letter dated 08th January 2000.
- However, since he has become disabled on 23rd July 1990 due to a terrorist attack while serving as the Storekeeper of Transport Board and if he had received an allowance from transport board as per the Public Administration Circular No.21/88 dated 13th July 1988, it is observed that he had received a disabled pension as well for the period from his age of 32 to 55.
 - Even though the Department of Pensions has informed the District Secretariat, Ampara to conduct an investigation as per Financial Regulations 104, no action has been taken even after elapse of 03 years from 05th August 2022.

M.T.I.Gamage

Senior Assistant Auditor General

For Auditor General

Director General of Pensions
Department of Pensions

The Auditor General's Report as per the Section 11(1) of the National Audit Act No.19 of 2018 on Financial Statement and other Legal and Directional Requirements of Teachers' Widows' and Orphans' Pension Fund for the year ended 31st December 2022.

1. Financial Statement

1.1. Qualified Opinion

The audit of the financial statement for the year ended as at 31st December 2022 and the balance sheet, revenue and expenditure account and cash flow statement as at the date of year ended and the notes, summary accounts comprising accounting policies of the Teachers' Widows' and Orphans' Pension Fund for the year ended 31st December 2022 was carried out under my direction in pursuance of provisions in Article 154(3) of the Constitution of the Democratic Socialist Republic of Sri Lanka read with provisions of the National Audit Act, No.19 of 2018. This report will be tabled in Parliament in terms of Article 154 (6) of the Constitution in due course.

In my opinion, except for the effects of the matters described in the Basis for Qualified Opinion, the financial statements give a true and fair view of the financial position of the Department as at 31st December 2022, and its financial performance and cash flows for the year then ended in accordance with generally accepted accounting principles of the public sector in Sri Lanka.

1.2. Basis for Qualified Opinion

As a result of non-submission of individual accounts and registry of members for audit purposes, the contribution account of Rs.351,699,361 and contribution due account of Rs.7,460,120 were couldn't authenticate properly.

The audit has been conducted in compliance with the Sri Lanka Audit Standards. My responsibility under this audit standards is further stated in the Auditor's Responsibilities for the Audit of the Financial Statements. I believe that the audit evidences used as the basis for my qualified opinion were appropriate and suitable.

1.3. Management and Controllers' Responsibilities for the Financial Statements

It is the responsibility of the management to determine a proper internal control mechanism to create financial statements in accordance with the accounting standards of public sector of Sri Lanka and to present it fairly without any erroneous statements.

The management should be responsible for continuous proceeding of the fund while preparing financial statement, unless if the operations are intended to be ceased as if the management expects to liquidate the fund or due to unavailability of any other alternative option, the management should be responsible to carry out the functions of the fund, accounting and revealing the facts required.

The responsibility of investigating the process of financial reporting of the fund will be on the parties controlling the fund.

Books and reports on revenue, expenditure, assets and liabilities of the fund in order to be able to prepare annually and timely required financial statements as per the Section 16(1) of the National Audit Act No. 19 of 2018 should be maintained.

1.4. Auditors' Responsibilities for the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's summary report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate and its materiality depends on the influence on economic decisions taken by users on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Appropriate audit procedures were designed and performed to identify and assess the risk of material misstatement in financial statements whether due to fraud or errors in providing a basis for the expressed audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- An understanding of internal control relevant to the audit was obtained in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the structure and content of the financial statements, including the disclosures of management and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- A decision was taken on appropriateness of using the basis of continuous existence of the fund for the accounting purposes based on audit evidence received on uncertainty as to the continuous existence of the fund due to events or circumstances prevailing. If I decide whether there is an uncertainty, my audit report should be directed on such related disclosures available in the financial statement and if such disclosures are not sufficient, I should modify my opinion. However, continuous existence would be terminated due to future events or circumstances.
- Evaluate whole presentation of the financial statement of reveals as to whether included transactions and events appropriately and suitably for the content and structure of the financial statements.

I have raised the awareness of controlling parties regarding significant audit findings, including significant deficiencies in main internal controlling and other matters.

2. Report on other legal and directional requirements

Special provisions are included regarding the requirements of National Audit Act No.19 of 2018.

- The financial statements are in consistence with the preceding year as per the requirement of Section 6(1)(d)(iii) of the National Audit Act No.19 of 2018.
- The recommendations directed by me in preceding years were included in the financial statement as per the requirement in Section 6(1)(d)(iv) of the National Audit Act No.19 of 2018.

Reference to laws, rules/provision	Observations
In terms of the section 25 of Public Services Provident Fund Act No. 1942	Even though the Director of Pensions should inform each Contributor the total amount of money credited to the fund in favour of the contributor at the relevant date by the end of each financial year, no methodology has been prepared to fulfil that requirement.

2.2.4. To state that the resources of the Fund have been utilized efficiently, economically and productively in compliance to the rules and regulations within the time frames as per the requirement of section 12 (h) of the National Audit Act No 19 of 2018.

2.3. Other matters

(a) Evidences have not been submitted to verify the facts such as the number of the members of the fund during the year under review, number of the members joined newly to the fund, number of the members, who left the fund after refunding contributions, and the number of the members as at the end of the year.

(b) Even though the ratio has been determined on an average value of Rs. 8,273.96 million , the value of opening monthly allocations for the distribution of income from interest among contributors, the basis for determining such ratio has not been revealed for the audit. During the year Rs. 1,741.90 million has been transferred to common reserve without distribution among contributors and therefore it was observed that the income from interest is not distributed fully among contributors.

5.2. Achievements and challenges in achieving sustainable development goals

A policy framework under the theme “Pension for All” has been presented to the decision making institutions with a proposal containing the aim of providing pension entitlement to every citizen in the country which yet to receive instructions for further actions.

Furthermore, it is informed that the Department of Pensions is not in a position under the legal provisions, regulations and policies of current Minutes on Pensions, Widows’/ Widowers’ and Orphans’ Pensions Ordinance to change (gender based) ratio of elders receiving pension which is vastly determined based on existing gender ratio of employees in public service.

It is emphasized that the gender ratio of elder persons receiving government pensions cannot be managed alone by the Department of Pensions even though it has been cited as a responsibility of the Department of Pensions in sub-index (1.3.1.f.i). Semi-government institutions have post-retirement benefit schemes such as Employees’ Provident Fund and if it is proposed to introduce pension schemes for temporary and self-employees, it is suggested to get the contribution of all parties attached thereto, especially the institutions such as Department of Labour, Ministry of Social Services and Agriculture Insurance Board that have closer connections with those sectors. Therefore, it is not practical to identify goals, data and measuring progress indices alone by the Department of Pensions without the involvement interference of any such other institutions.
